ATTACHING TO G7

To attach PowerPack to G7:

blacklinesafety

G7 PowerPack

Getting Started Guide

PowerPack clasp

Release tab

Screw hole

Product label

G7 PowerPack

Charge lights (front and back)

Charge button

Charge port

1. Release the PowerPack clasp from PowerPack by pressing inward on the release tabs

2. Open G7's metal clip

3. Using a phillips #1 screwdriver, unscrew the metal clip's screw through its hole

4. Remove the metal clip

5. Align the screw hole in PowerPack's clasp with the hole on the back of G7

6. Align G7's metal clip and PowerPack screw with the hole

7. Through the metal clip's opening, screw both the PowerPack clasp and the metal clip back on to G7

8. Align the bottom of PowerPack with G7's charge port, and slide in to place until you hear a click

HOW IT WORKS

PowerPack is attached to G7 to help G7's battery last longer during your shift.

When attached, PowerPack will deplete first, and when it reaches 0% battery life, G7's battery will then start to deplete.

PowerPack doubles your G7's typical battery life to (up to 36 hours at normal operation).

It is important to note G7's PowerPack is only functional in temperatures above 0°C (32°F).
WHAT YOU WILL SEE ON G7

When PowerPack is attached to G7, the charge light will glow at the bottom of G7 and the battery icon will display a lightning bolt to show G7 is charging.

NOTE: If G7's battery is fully depleted, charge must be initiated by pressing PowerPack's charge button.

From the accessories menu, you can see PowerPack information (such as unit ID and device version) and its battery level.

```

Battery level
Battery info
```

PowerPack's level can also be checked by pressing the button on the back of the device. The lights will glow to depict the battery's level.

CHARGING

G7 PowerPack can be charged while attached to G7 or independently, with a charge clip and cable or with Blackline's wall mount charger, 5 or 20 bay chargers.

To charge while attached to G7 or independently:

1. Insert the micro USB into the charge clip
2. Slide the charge clip onto the charge port of PowerPack.
3. If charging while attached to G7, G7's red charge light will glow. PowerPack and G7's battery will charge in tandem. G7's device battery level can be seen on its screen. PowerPack's level can be seen from the battery level lights, both when charging alone and while attached to G7.

NOTE: Charging PowerPack (with G7 or independently) can take up to 4 hours.
